## A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness, allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nose, obtain a bottle of Boobes' German Syrup. It will give you immediate relief.

FOR PRESIDENT,

BENJAMIN HARRISON

OF INDIANA.

FOR VICE-PRESIDENT

LEVI P. MORTON,

OF NEW YORK

WASHINGTON CORRESPONDENCE.

Breakers Ahead—Exports Rapidly Declining and Imports of Foreign Merchandise Alarmingly Increasing.

WASHINGTON, Sept. 14, 1888.

EDITOR JOURNAL.—As soon as the free trade message of the President was transmitted to Congress your correspondent made it a special business to interview the leading importers in New York as to their intentions for the future. With but few exceptions they all agreed to increase importations, and the official returns which I herewith transmit to you show that they have carried out their intention only too well. From the first of January to July 31st of this year, according to the official returns just published by the Treasury Department, our imports for these seven months amount to \$433,948,200, while our exports have decreased and foot up only \$356,311,465, leaving a balance of trade against us to be met by specie payment to the amount of \$77,636,735.

This advocacy of free trade bears already bitter fruits, and but for the Republican Senate we would have fared considerably worse. The enemies of this country who truckle to English interests are by far too many in this country for our common good. When the English papers call us their "American cousins" and repeatedly tell us that "blood is thicker than water," also that "England is our mother country" and other such flattering phrases, the snobs of this country straightway lose their heads, and are ready to fall upon the necks of their English cousins vowing eternal admiration and worse—submission. What the Anglomaniacs, male and female, are ready to concede to "dear old England" and ape them in their daily walks of life is carried on by the present Administration and its English Cabinet to an extent never before beheld in this country. That the President's "English blood is thicker than water" and that "England is his mother country" has been fully demonstrated by his actions in favor of English free trade, and his refusal to enforce the power Congress has conferred upon him on March 3, 1887. Not wishing to hurt the feelings of his "mother country" he asks for delays in the shape of a retaliation message. The power conferred upon him by the Act of March 3, 1887, is ample to protect American fishermen and American interests generally, but no, he wants an excuse to dodge the issue and builds his hope of re-election upon the contributions from the Cobden Club in England, or why is this continual deference on the part of the present Administration to the English Government? It cannot be that he intends to deliver us bound hand and foot to that Government, especially after having started out with that blaze of red light and that fizzle of "pin-wheels" as the curtain rose upon what the people were led to believe was to be a real drama of "Jacksonian simplicity" and a true "business" administration. Oh for the spirit of Jackson and his rule for twenty-four hours in the White House and England, which now leads us by the nose, would be down on her knees and crave for mercy. Dissect his letter of acceptance and you will see that England's interests are well taken care of. Read it by the light of American interests and you will soon discover that he says a great deal he does not mean, and means a great deal he does not say. His thrusts at "trusts" is too shallow even for self-deceit, has he not in his Cabinet the representation of the "trust" of all "trusts"? Is not Whitney as deep in the mud of the "Standard Oil Trust" as Cleveland in the mire of the "Cobden Club Trust"? Is not the "Southern Whisky Trust" upholding financially the Democratic National Committee? How can they disprove these accusations? They cannot and must stand the brunt of the November elections!

IVAN C. MICHELS.

The Hon. J. B. Bennett, of Waco, editor of the Southern Mercury, organ of the Farmer's Alliance of Texas, and heretofore a prominent Democrat, now casts his fortunes with the real friends of the farmers, and is a Republican candidate for the Legislature.

The Enterprise has these items: Comstockers who have returned from the State Fair say that Reno is now on dress parade. She is posing and trying to show herself off to the best advantage. To the great exasperation of the majority, however, a small minority cannot help showing their porcine proclivities.

The keepers of some of the Reno lodging houses only ask \$2.50 for a bed. Particular inquiry shows that they do not wish to sell their beds out and out for that price, as they are probably worth \$5 or \$6. What they want is \$2.50 for the use of said beds for a single night.

The Renottes helped us out with our Fourth of July celebration, and in return our people have been helping them out with the Fair, which is the big event of the year with them.

## How He Advertised.

A gentleman, living in a small city in the West, had inherited consumption from his father, and the doctor told him he must die. He stopped taking their weakening physic and tried Dr. Pierce's Golden Medical Discovery. In three months he was strong and well. The gentleman's neighbors knew how sickly he formerly was, and asked him to state in public how he had been cured. He advertised to lecture on a certain evening, in the public hall, and there was a large audience present. This was his lecture: A picture of himself, before, and one after, he tried the remedy, and five empty bottles of Dr. Pierce's Golden Medical Discovery. He said nothing, but convinced his audience just the same.

It outwits all—Dr. Sage's Catarrh Remedy.

**PLATFORM AND RESOLUTIONS.**

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

**Resolved,** That the question of a sufficient supply of a circulating medium to maintain a permanent range of prices for labor and property is the most important political question awaiting solution by the American people.

**Resolved,** That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

**Resolved,** That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people oppressive, unjust, and should be repealed.

**Resolved,** That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

**Resolved,** That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that the ring or trust be destroyed and equal rights restored to all people.

**Resolved,** That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

**Resolved,** That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

**Resolved,** That the trickery of the President and his advisers by which they prevented a vote in the use of representatives on the Beck silver amendment to the Bond purchasing bill, equals the value of the secret and fraudulent demonetization of silver in 1873.

**Resolved,** That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wage-workers competition with the cheap labor of other lands.

**Resolved,** That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

**Resolved,** That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with . . . to . . . necessary bills for the improvement of rivers and harbors, with using the proceeds of the land sale to make appropriations for a navy and coast defenses, with attempting to destroy the protective tariff, with counting the gold will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonstrate silver and destroy the industries of our country, and for the reduction of wages of the Mint employees at Carson (see closing of Carson Mint when it was recently self-sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

**Resolved,** That we favor the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcrowded condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

**Resolved,** That we favor the right of labor to organize for its lawful protection.

**Resolved,** That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

**Resolved,** That we favor liberal appropriations by Congress for hydrographical and topographical surveys, in this State to the end that the waste waters may be preserved for the purpose of irrigation.

**Resolved,** That we favor the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

**Resolved,** That it is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

**Resolved,** That we are in favor of re-opening the Carson Mine for coal, and raising the wages of its employees to the standard paid by the last Republican Administration.

**Resolved,** That we demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

**PLATFORM.**

The Republicans of Washoe, proud of the past and hopeful for the future, heartily endorse the platform and nominees of the National Republican Convention, as adopted at Chicago, and the Republican State Convention at Winnemucca, and pledge a rousing majority for Harrison and Morton and Protection, and Murphy and Burdette and the ticket nominated by this Convention. We demand legislation from both Government and State in regard to irrigation, and for the improvement of our natural waterways, as well as for the storage of water, whereby the natural advantages of this section may be improved to their fullest capacity. We demand the most rigid economy in State and county affairs, and the establishment of the State's expenses upon such a basis as will secure good government at the lowest rate of taxation. We insist that a rate of seventy cents per acre should be and is sufficient to provide revenue for the State Government.

In view of the rejection of the new Chinese treaty by the Mongolian Government we demand the total and absolute exclusion of all Chinese, and they must go.
